Important information regarding the integration of Ultra4 competitors and Ultra4 classes into Rallye Breslau 2023:

1. Ultra4 competitors and Ultra4 vehicles are welcome to enter and compete in Rallye Breslau.

If a minimum of 7 vehicles of the same Ultra4 class enter the event and successfully pass administrative check and technical scrutineering, the organizer will form a separate class with separate classification and separate trophies.

If the minimal number of Ultra4 vehicles (7) to form a separate class is not present, the Ultra4 classes will be equated to the Rallye Breslau classes in the following way:

- Ultra4 class 4400, 4500 and 4800 enter as Cross Country, Car Open
 - Ultra4 class 4600 enter as Cross Country, Car Limited
 - Ultra4 class 4900 enter as Cross Country, SSV / UTV
2. As Ultra4 vehicles have no registration for taking part in the public traffic, the U4 competitors will be escorted by the organizer on the rally road sections that are driven on public roads.
 3. If a separate Ultra4 class with a separate classification is formed, the organizer will provide the competitors from this class with navigation devices with the rally route. The road book can still be used as means of navigation.
 4. Refueling of Ultra4 vehicles will be done only in the bivouacs or at the refueling zones provided by the organizer.
 5. Reduced fuel autonomy requirements with maximal distance between refuelings of 150 km.

6. The transfer from Bivouac 1 Zagan to Bivouac 2 Drawsko will be done on Tuesday, 27.06 after Leg 2. The rally vehicles may be loaded and transported by the service. Competitors have the possibility to participate in the event without assistance personnel, if they service and transport the rally vehicles by themselves. Road sections for the whole rally are brought to the minimum.
