FACTS AND FIGURES REVIEW

After the peak year of Covid 19, we thought that the general situation was improving and that for us fans of engines, dust and mud it would all be much easier. But no, the delicate geopolitical and economic situation has hit us once again.

Despite all these adverse situations that would have made anyone say "ok for this year no race and see you all in 2023", we tried and today we can say we succeeded!

It was by no means easy. We faced challenges to cope with the military requirements in Poland, authorities' requirements in Tunisia and sandstorms, new terrains and weather challenges in Romania. But you should know by now, our motto is "never give up" and we have always believed in you and in our will to set up the rally despite the extremely challenging situation which many would describe as impossible to cope with.
